SCHOOL OF NURSING

The University of Jordan School of Nursing

*The School of Nursing;
"Excellence in Teaching, Clinical Practice, Research and
Community Services"*

School Profile 2018-2019

About the School

The School of Nursing (SON) at The University of Jordan was established in 1972 by a Royal Decree. It was the first program in Jordan to offer a Baccalaureate Degree in nursing which was established by foreign nursing faculty. At the beginning, the School was a department at the Faculty of Medical Sciences until 1977, when the School of Nursing became an independent School and the university administration dedicated the resources to build the Jordanian Nursing Faculty capacity.

The SON was the first school in Jordan to offer specialized and advanced graduate nursing education. The graduate program (MSN) in nursing education began in 1986. Degree program offerings continued to expand and in a pioneer step in 2005, the School of Nursing established the first PhD program in Jordan. Since it was established, the School of Nursing continued to create a high impact role in terms of preparing future scholars and leaders in nursing, serving national and regional communities, and continuing to develop nursing competencies through specialized courses and continuing education programs.

Our Vision

To be a leading, global school in the areas of nursing education, research and community services.

Our Mission

The School of Nursing dedicates itself to improve health and wellbeing of society through preparing professional nurses to provide quality nursing care, conduct research and provide community service. The school provides a model learning environment that encourages life-long learning, innovation, and professional and personal development.

Our Goals:

- Graduate competent nurses able to provide quality nursing care.
- Promote a scientific research culture among faculty and students.
- Develop the body of nursing knowledge at local, regional, and international levels.
- Disseminate nursing knowledge through national and international conferences, workshops, seminars, training programs, and exchange programs.
- Promote professional development of faculty members and administrative staff.
- Promote continuous learning and educational culture and environment.
- Build collaborative relations and partnerships with local, regional, and international institutions.
-

Our Core Value:

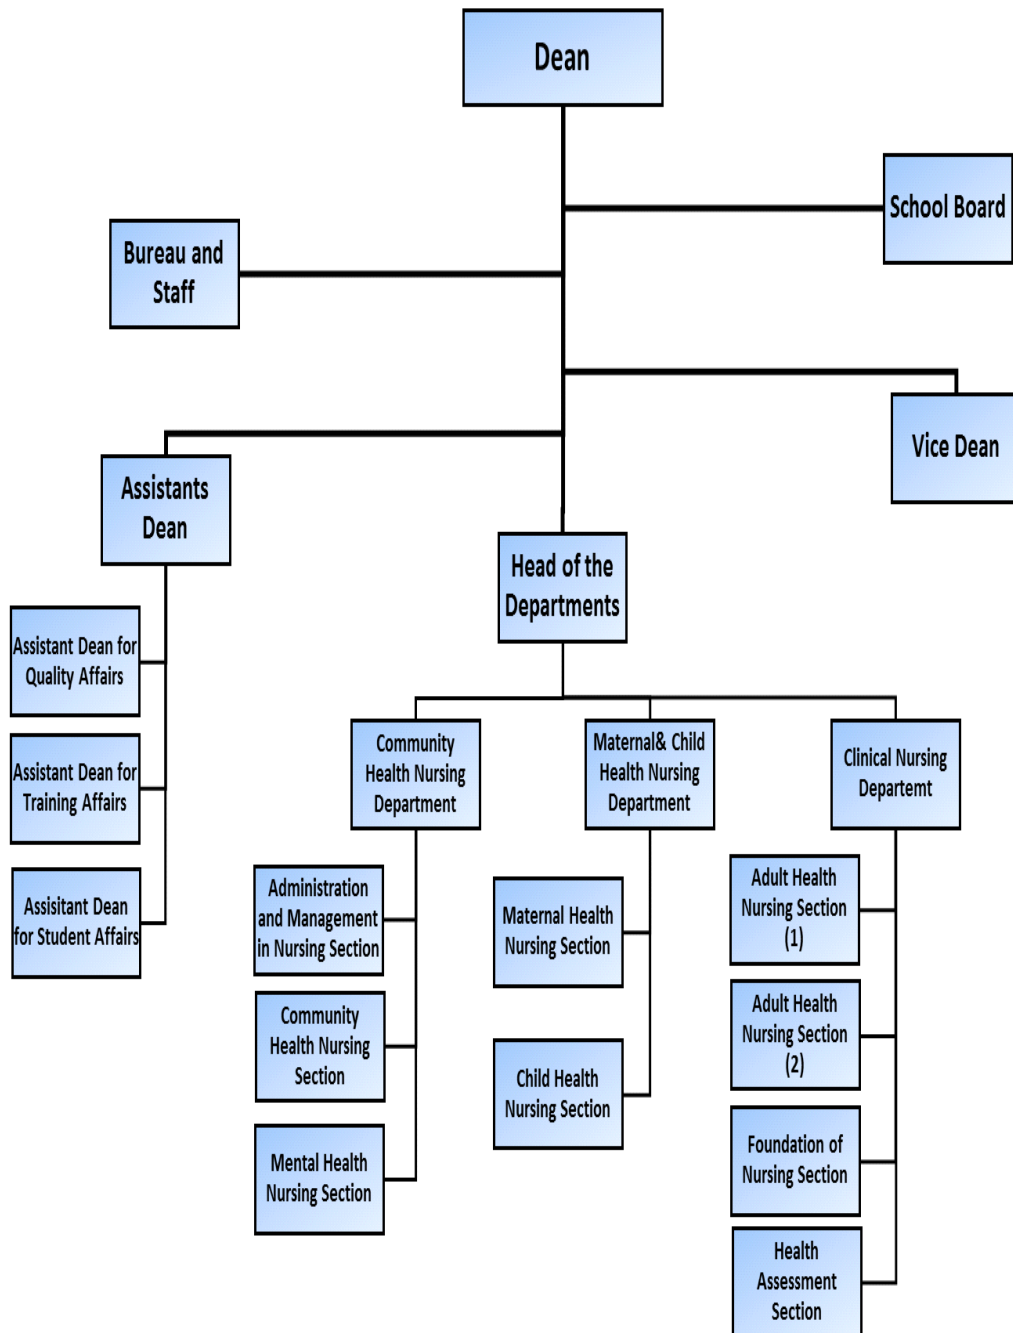

Our Intended Learning outcomes (BSc in Nursing):

Upon successful completion of BSc Program in Nursing, the students will be able to:

- ILO 1:** Demonstrate competency in performing and providing the role of a professional nurse in **quality care provision** for individuals, families, and groups.
- ILO 2:** Apply principles of **effective communication** with peers, individuals, families, groups, and health care team.
- ILO 3:** Utilize **critical thinking** and problem solving in planning and implementing nursing care for individuals, families, and groups.
- ILO 4:** Apply professional **standards, values, and behaviors** in providing nursing care for individuals, families, and groups.
- ILO 5:** Demonstrate **safety measures** to protect self, individuals, families, and groups.
- ILO 6:** Translate **organizational, leadership, interprofessional collaboration, and management concepts** into nursing care for individuals, families, and groups.
- ILO 7:** Utilize **evidence based practice** in providing care for individuals, families, and groups.

Organization Structure

International Accreditation of the school of Nursing BSc Program until Spring 2022

Accreditation Commission for Education in Nursing

Has Awarded
Accreditation
to

University of Jordan
Baccalaureate Nursing Program

For Achievement of Quality and Excellence in Nursing Education
Spring 2017 – Spring 2022

Catherine McJannet
Catherine McJannet, MN, RN, CEN
Chair, ACEN

Marsal P. Stoll
Marsal P. Stoll, EdD, MSN
Chief Executive Officer, ACEN

JU School of Nursing makes a global ranking

According to Shanghai Global Ranking of Academic Subjects 2018. The school of nursing appeared in the best 151-200 subject category.

**University of Jordan has been approved by LRQA to
the following standards ISO 9001:2015**

Certificate of Approval

This is to certify that the Management System of:

University of Jordan

Jubiha, Amman, Jordan

has been approved by LRQA to the following standards:

ISO 9001:2015

A handwritten signature in black ink, appearing to read 'Basem Obaid'.

Basem Obaid - Area Operations Manager

Issued by: Lloyd's Register EMEA

for and on behalf of: Lloyd's Register Quality Assurance Limited

Current issue date: 3 June 2018
Expiry date: 2 June 2021
Certificate identity number: 10097695

Original approval(s):
ISO 9001 – 3 June 2018

Approval number(s): ISO 9001 – 00014410

School of Nursing: The Distinguished Academic Association for 2018

School Board (2017-2018)

Our Departments:

The SON has there administrative departments; the Clinical Nursing includes 4 sections: Foundations of Professional Nursing, Health Assessment, Adult Health Nursing 1, and Adult Health Nursing 2. Maternal and Child Health Department has 2 sections: Maternal Health Nursing and Child and Adolescence Health Nursing, and Community Health Nursing department has 3 sections: Mental Health Nursing, Community Health Nursing, and Management and Leadership in Nursing. These sections, headed by faculty course coordinators hold regular separate meetings to organize clinical practice schedules, exams, students' assignments, rotations and clinical settings, for purposes of bridging theory and practice.

- **Department of Clinical Nursing** receives students in their first, second, and third year of study. It provides them with basic knowledge, attitudes, and skills needed in the areas of foundation of nursing, caring of adult clients, and caring of critically ill. The students are prepared to practice nursing starting from the lab and ending in specialized care units.

Courses offered by Clinical Nursing Department (31 credit hours)

#	Course Number	Course Title	Credit Hours
1.	0702101	Introduction to Nursing Profession	2
2.	0702105	Foundations of Professional Nursing	3
3.	0702106	Foundations of Professional Nursing-Clinical	3
4.	0702107	Health Assessment	2
5.	0702204	Introduction to Adult Health Nursing	3
6.	0702205	Pathophysiology	3
7.	0702206	Adult Health Nursing (1)	3
8.	0702207	Adult Health Nursing (1)-Clinical	3
9.	0702308	Adult Health Nursing (2)	3
10.	0702309	Adult Health Nursing (2)-Clinical	3
11.	0712311	Emergency and Disaster Nursing	3
		Total	31

- **Department of Community Health Nursing** receives students in their third and fourth years of study and offers courses that engage them in the community. It provides them with basic knowledge, attitudes, and skills needed in the areas of mental health nursing, community health nursing, and management and leadership in nursing.

Courses offered by Community Nursing Department (35 credit hours)

#	Course Number	Course Title	Credit Hours
1.	0701303	PsychiatricMental Health Nursing	3
2.	0701304	PsychiatricMental Health Nursing-Clinical	3
3.	0701406	Trends, Issues and Ethical considerations in Nursing	2
4.	0701407	Health and Occupational Safety	3
5.	0701410	Community Health Nursing	3
6.	0711201	Concepts of Therapeutic Communication	3
7.	0711302	Nursing Gerontology	3
8.	0711411	Community Health Nursing/Clinical	3
9.	0711412	Nursing Informatics	3
10.	0711413	Management and Leadership in Nursing	3
11.	0711414	Management and Leadership in Nursing-Clinical	2
12.	0711415	Intensive Clinical Training	4
		Total	35

- **Department of Maternal and Child Health Nursing** receives students in their third year of study and it provides them with basic knowledge, attitudes, and skills needed to care for child-bearing women, infants, children, and adolescents. Students are trained in various maternal-child health settings including community based and hospital based services.

#	Course Number	Course Title	Credit Hours
1.	0703201	Foundations of Growth and Development	3
2.	0703102	Professional Writing	2
3.	0713303	Children and Adolescents Health Nursing	3
4.	0703304	Children and Adolescents Health Nursing-Clinical	3
5.	0703305	Maternal Health Nursing	3
6.	0703306	Maternal Health Nursing-Clinical	3
7.	0703307	Scientific Research & Statistical Methods	3
8.	0703309	Reproductive Health	3
9.	0703202	Health Education and Promotion	2
		Total	25

Courses offered by Maternity Child Health Nursing Department (25 credit hours)

More Information is available on school website: <http://nursing.ju.edu.jo/Home.asp>

Nursing Laboratories:

There are seven nursing laboratories located on the second floor at the Health Complex Hall.

- Child Health Nursing
- Foundation of Professional Nursing
- Physical Health Assessment
- Adult Health
- Maternity Health Nursing
- Computer Simulation/ Audio Visual
- Simulation/ Critical Care

Princess Muna Al Hussein opens the nursing laboratories

Our Programs:

The academic programs in nursing, prepare individuals for professional roles. In addition, these programs prepare individuals for collaboration with other professionals and consumers in the delivery of holistic health care, health-related research, and advocacy for the improvement of health outcomes.

- **Bachelor of Science:**

Undergraduate nursing education builds on a foundation of studies in the sciences, humanities, and arts. The baccalaureate program prepares competent, self-directed, independent, and safe practitioner and generalist (Registered Nurses) who can assume increasing responsibility and leadership in the delivery of evidence-based nursing care.

- **Master of Science:**

The Graduate program offers a Master of Science in Nursing (MSN) with preparation as a clinical nurse specialist in the areas of Critical Care, Palliative Care and Psychiatric-Mental Health. Master's nursing education builds on a foundation of undergraduate nursing education and provides specialty practice with an expanded theoretical and empirical knowledge base.

The Master of Science in Clinical Nursing in its three specialties:

- Critical Care
- Palliative Care
- Psychiatric-Mental Health programs

The Program prepares registered nurses for advanced functional roles that require increased accountability, expertise, and leadership. Graduates are prepared to provide evidence-based health care in collaboration with other health care providers and consumers.

- **Doctor of Philosophy**

The PhD in Nursing started in the Fall of 2005. Doctoral education develops and advances empirical knowledge to promote evidence-based practice in the discipline of nursing. The doctorate program provides a basis for future research-focused graduates who are knowledgeable and competent to develop theories and conduct research and other scholarly activities to assume academic, research, and leadership roles.

Our Faculty:

Faculty Qualifications and Numbers According to Academic Rank (Up to the First Semester 2018-2019)

Faculty and clinical Instructors' Numbers and Specialty Area Distribution in the Last Three Academic Years (Up to the First Semester 2016-2019)

Faculty Distribution by Degree and Department, 2015-2019

Faculty (PhD and Master, 2018/2019)

Faculty (PhD and master 2018/2019)

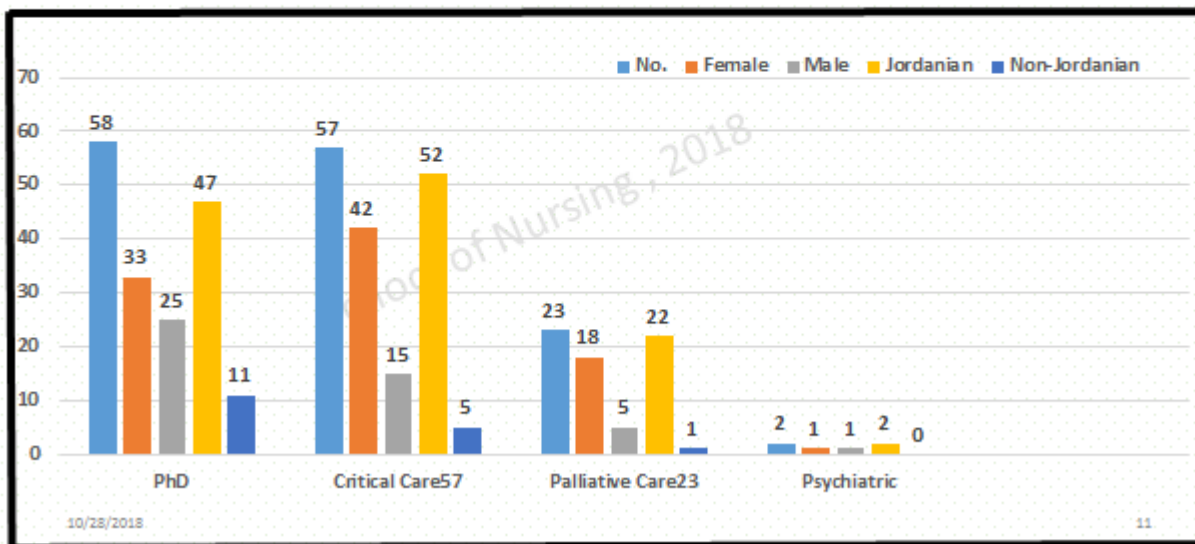

Faculty and clinical instructors Distributed by Gender, 2018-2019

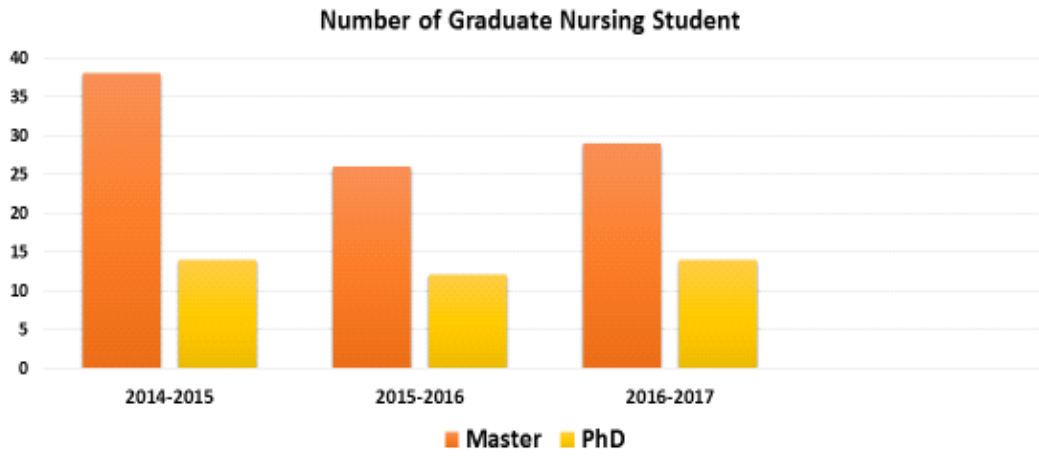

Our Students:

Number of Student According to Admission type (Parallel, Bridging, and Regular), 2013-2017

the current number of graduate nursing students in 2018

number of students (PhD and Master)

Study Plan for BSc in Nursing

The study at the Faculty of Nursing enables the student to obtain the Bachelor Degree of Science in Nursing by attending total of **(136)** credit hours divided by four academic years as follows:

Study Plan for BSc Degree in Nursing

1.	School	Nursing
2.	Department	
3.	Program title (Arabic)	بكالوريوس في التمريض
4.	Program title (English)	BSc in Nursing

5. Numbering System:

- The course number will contain no more than 7 numerical digits.
- The first two digits of the 7 digit number indicate the school code.
- The third and fourth digits indicate the department code
- The fifth digit indicates the level.
- The 6th and 7th digits indicate the serial number

Course Description

Course No.	Course Title	Credit Hours
0303101	General Chemistry Prerequisite: (None)	(3 credit hours)
	Measurements and significant figures, chemical reactions; stoichiometry; the gaseous state, thermochemistry; electronic structure and periodicity; chemical bonding; molecular shapes; states of matter and intermolecular forces; physical properties of solutions.	
0304101	General Biology 1 Prerequisite: (None)	(3 credit hours)
	Internal structure of the cell; molecules of the cell; cellular respiration photosynthesis; molecular biology of the gene; genetic code; DNA replication, protein synthesis; the molecular genetics of bacteria and viruses, the control of gene expression in prokaryotes and eukaryotes; endocrine, glands and chemical regulation, the Immunology system.	
0501104	Biochemistry for Nursing Prerequisite: (0301301)	(3 credit hours)
	The course begins with a comprehensive overview of the types and characteristics of the most important reactions of organic chemical compounds related biochemistry, and then build the characteristics and function of biochemical compounds of carbohydrates, lipids, proteins, and general characteristics of the enzymes and the	

	organization of its work and its relation to nursing. The production of bio-energy metabolic pathways and interactions responsible energy storage, construction, nucleic acids and proteins , an overview of the development of biotechnology and molecular biology and their relationship to diseases, mechanisms of action of hormones and the relationship of biochemical nutrition.	
0503202	Pharmacology for Nursing Prerequisite:(0501105) & (0501104)	(3 credit hours)
	This course is briefly describing the general principles of pharmacology and the relationship of the nursing profession in this science, as well as covering the most important drugs used in the treatment of various diseases and the relationship of the nurse in administering medications and observes the action of medications and side effects in the patient. The course includes self-nervous system drugs, central nervous system drugs, heart medications and blood vessels, diuretics, anti-infection drugs, cancer drugs, endocrine drugs, digestive system drugs, respiratory drugs, and hormones self-positional drugs.	
0501105	Physiology for Nursing Prerequisite:(0502105) or Concurrent	(3 credit hours)
	Course includes a general description of physiology, an explanation of body fluids and blood physiology of nerves and muscles. The course describes the functions of systems: circulatory, heart, respiratory and digestive, urinary and reproductive system in addition to endocrine. It concludes by explaining the functions of the central nervous system, both sensory and motor nervous system, both self-friendly and anticholinergic. As it is referring to some clinical applications when appropriate.	
0502105	Anatomy for Nursing Prerequisite: (None)	(3 credit hours)
	This course aims to identify the natural structure of the human body and its mechanism of action includes studying the basic structure of the cell and tissue of the human body as well as all human body organs.	
0504201	Microbiology for Nursing Prerequisite:(0304101)	(3 credit hours)
	The course includes general introduction about microorganisms of different types of viruses, bacteria, fungi and parasites, and their prevalence in humans and nature, and the cellular and humeral immune responses are considered in relation to infectious disease. The course provides knowledge on the most important types of human pathogens, clinical signs and symptoms, laboratory diagnosis and prevention and treatment. Hospital acquired infection	

	and procedures to prevent infection in hospitals and methods of sterilization and disinfection are included.	
0603232	Applied Nutrition for Nursing Prerequisite:(0501104)	(3 credit hours)
	Fundamentals related to nutrients & energy with respect to digestion, absorption, metabolism, functions, dietary sources, diseases of malnutrition and requirements throughout the life cycle; ; assessment of nutritional status, formulation and planning diets, nutrition, counseling, and use of therapeutic diets in the management of common diseases of different body systems & selected chronic diseases of affluence.	
0702107	Health Assessment Prerequisite:(0501105)	(2 credit hours)
	The aim of this course (Theoretical and clinical parts) is to provide the students with the knowledge and skills necessary to assess the individuals' health throughout the stages of life. In addition, the course aims to develop the ability of students to practice health assessment based on the functional health patterns in nursing, which affects the individual's health status. It enables the student to differentiate any deviations from normal status. The students will be trained in the faculty of nursing laboratories.	
0702101	Introduction to Nursing Profession Prerequisite:(None)	(2 credit hours)
	This course introduces the beginning student's to the history of nursing, its nature and roles. The course has been prepared to provide the student with basic information and appropriate positive attitudes that will be acquired while studying and working in nursing profession. This information includes health and freedom from illness, nursing process, and health care delivery. In addition, it prepares the nursing students to use critical thinking and decision-making process, which guide to safe and competent nursing practice.	

0702105	Foundations of Professional Nursing Prerequisite:(0702101) & Concurrent with (0702106)	(3 credit hours)
	This course is designed to provide the beginning student with the basic knowledge and positive attitudes related to the individual's physiological, psychological, and social needs according to the functional health patterns. This knowledge helps students to understand the integrated care models and complementary therapies, and therefore reflected in the planning and implementation of individual nursing care,	

	using the nursing process steps as a strategy in planning and implementation.	
0702106	Foundations of Professional Nursing (Clinical) Concurrent with (0702105)	(3 credit hours)
	This clinical course is designed to provide the student with laboratory guided experiences with emphasis on the student's independent learning that will assist her/him to master the basic nursing skills. These skills are presented according to the functional health patterns in parallel with knowledge provided to the students in the theory course in order to prepare the students to implement holistic care modalities in the clinical settings.	
0702204	Introduction to Adult Health Nursing Prerequisite:(0702105) & (0702106)	(3 credit hours)
	This course aims to provide students with the basic concepts of holistic nursing care and nursing procedures through integration of nursing concepts with physical, social and psychological sciences. This course uses the nursing process as a general framework to determine nursing diagnosis and nursing interventions that aimed to maintain, promote, or restore the health of individuals and their families. Also, this course focuses on the bio-psycho-social responses of adult clients to acute and chronic conditions that affect their functional health patterns.	
0702205	Pathophysiology Prerequisite:(0501105)	(3 credit hours)
	This course focuses on the physiological changes that occur as a result of internal and external environmental stressors and pathological responses of the body that lead to the appearance of the signs and symptoms of the disease in response to these changes. This course reviews the concepts and fundamentals of the most common health problems. The content focuses on the special health needs over individual's life.	
0702206	Adult Health Nursing (1) Prerequisite:(0702204)&(0702107), Concurrent with (0702207)	(3 credit hours)
	This course is sequel to the Introduction to Adult Health Nursing course; It introduces students to the conditions that affect the functional health patterns of an adult patient. It focuses on the bio-psycho-social responses of adults to acute and chronic conditions that affect their functional health patterns. The nursing process will be used as general framework to formulate nursing diagnosis and nursing interventions directed towards promoting, maintaining and restoring the health of adults and their families.	
0702207	Adult Health Nursing (1) (Clinical) Prerequisite:(0702107)&(0702204), Concurrent with (0702206)	(3 credit hours)

	<p>This course is designed to provide a guided nursing experience, knowledge and skills essential in preparation of professional nurses who are responsible to provide nursing care of adult patients with medical and surgical health conditions. It focuses on the bio-psycho-social responses of adults to actual and high risk conditions that affect their functional health patterns. This course provides the student with the practical experiences in the clinical settings to deliver nursing care for adult patients with altered functional health patterns. The nursing process will be utilized as a framework for care for the individuals and their families. The course aims at developing the decision-making and problem solving skills, and linking theory to practice.</p>	
0702308	<p>Adult Health Nursing (2) Prerequisite:(0702206)&(0702207), Concurrent with (0702309)</p>	(3 credit hours)
	<p>This course, a sequel to Adult Health Nursing-1course. It introduces students to diseases and critical conditions of adult patients and their effects on functional patterns of adult's patients and their families. Students are expected to have skills and knowledge to make the right decision when providing care to patients who are suffering from critical health conditions. Nursing process steps are used as the basis for the implementation of the nursing plan. Students are expected to demonstrate decision-making and problem solving skills and provide holistic and diverse nursing interventions such as health education and promote healthy life style modifications.</p>	
0702309	<p>Adult Health Nursing (2) (Clinical) Prerequisite:(0702207)& Concurrent with (0702308)</p>	(3 credit hours)
	<p>This course provides the student with the knowledge and skills appropriate for the care of adults who are suffering from critical health conditions, focusing on bio-psycho-social responses to patient with actual critical problems. This course deliberately give the student clinical experience in specialized medical units. As the student is expected to have basic knowledge and skills related to pathophysiology, treatment modalities, and advanced nursing skills, using the nursing process steps primarily to provide nursing care.</p>	
0712311	<p>Emergency and Disaster Nursing Prerequisite:(0702308)</p>	(3 credit hours)
	<p>This course aims to prepare nursing students to provide care for people in emergency situations and disasters. This course will provide students with: definition of disaster nursing; recognition of the community resources, utilizing disaster planning models; and recognizing the role of nurses in disaster situations. In addition, The course will include basics of emergency, first aid and emergency nursing care for specific medical emergencies. Critical thinking and problem solving is emphasized.</p>	

0711413	Management and Leadership in Nursing Prerequisite:(0702309)& Concurrent with (0711414)	(3 credit hours)
	This course is designed to provide the student with the basic concepts and principles in management and leadership that necessary to promote student's ability to manage health care and make appropriate decisions. Also, it helps students develop leadership ability that enables him/her to influence the quality of health care and work as a change agent. Management process is used as a framework in designing the content of the course.	
0711414	Management and Leadership in Nursing (Clinical) Prerequisite: (0702309) &Concurrent with (0711413)	(2 credit hours)
	This course is complementary to the management and leadership in nursing theory course. The course is designed to provide an opportunity for students to train in health institutions to apply the basic concepts and principles in management through tasks and activities assigned to him/her during his/her training. In addition, individual or group projects will be assigned to test the acquisition of different management skills.	
0711415	Intensive Clinical Training Prerequisite: Graduation Semester	(4 credit hours)
	The aim of this course is to prepare the students for their future role after graduation, through the provision of independent clinical training opportunities, and application of knowledge, skills and attitudes proceeds gained during their studies. Under the guidance of nursing staff who works in the clinical area, and in coordination with members from the Faculty of Nursing. In this course, the student will practice on daily basis “full shift” in one of the health care institutions throughout the graduation semester in the fourth year for 48 shifts.	
0711412	Nursing Informatics Prerequisite: (None)	(3 credit hours)
	This course aims to provide nursing students with necessary concepts to build a computerized information system that will improve the care provided and the optimal utilization of available resources. This course will focus on the identification of the health care cost reduction methods, quality of care, and access to care through automated system.	
0711201	Concepts of Therapeutic Communication Prerequisite: (None)	(3 credit hours)
	This course is considered an introduction to the various methods that help nursing students to interact effectively with the patient, family and professional colleagues. The course focuses on the strategies and principles of communication that help nursing students to interact positively with patients with different illness and suffering, and the mechanisms of teamwork among health care providers. The	

	<p>psychosocial aspect of illness and health will also be addressed. Therapeutic communication skills are the tools to be used by the students. Also students learn the principles of abstract thinking and basic concepts necessary for carrying out his/her duties in the future, as a professional nurse.</p>	
0701303	<p>Psychiatric Mental Health Nursing Prerequisite: (0711201)&(0702206) Concurrent with (0701304)</p>	(3 credit hours)
	<p>This course is designed for the beginner student in mental health psychiatric nursing. The course is based on the belief in the humanistic and holistic approach to the individuals during psychiatric nursing care. The nursing process used as a general framework to discuss mental health concepts including coping and adaptation strategies among individuals. Each concept represents a major coping pattern along the mental health-mental illness continuum is addressed through its relation to the anxiety continuum, theoretical bases, its manifestation with the five dimensions of the person, related nursing diagnosis, psychiatric diagnosis, and nursing care plans.</p>	
0701304	<p>Psychiatric Mental Health Nursing (Clinical) Prerequisite: (0702207) Concurrent with (0701303)</p>	(3 credit hours)
	<p>This course has been designed to promote nursing students ability and insight to develop knowledge and gain practical experience when dealing with an individual who is suffering from mental and psychological problems, or an individual who is suffering from physical, emotional, spiritual and social problems of a psychological and mental effects. The course is planned to facilitate integration and application of the scientific knowledge acquired from theory class. The focus is on humanistic holistic approach through effective communication with the health care team members to promote the health and well-being of the client within the therapeutic environment.</p>	
0703202	<p>Health Education and Promotion Prerequisite: (None)</p>	(2 credit hours)
	<p>This course provides the student with the concepts of health education and primary health care. In addition it introduces the students to the teaching methods and skills to enhance the health of individuals, families and society. The course is planned to facilitate integration and application of the scientific knowledge regarding health promotion theory and practice. Health education process focused on the main aspects that include disease prevention and treatment and give students the opportunity to apply the health education programs for patients who suffer from health and environmental problems in the community. The</p>	

	scientific research approach will be utilized in relation to health education.	
0703201	Foundations of Growth and Development Prerequisite:(0702106)	(3 credit hours)
	This course provides the students with the main concepts and principles that related to individual growth through childhood, adolescents, adults and elderly people. It focuses on the most important factors that affect the growth and development of the individual as well as the physical, psychological, social and cognitive changes that occur during the different stages of life. The course defines the most important age requirements for each stage and will focus on the role of the family and the community to help the individual to reach the optimum level of health by introducing the importance of comprehensive nursing care for children and adolescents, adults and the elderly and their families relying on the general framework for the development of the concept of health maintenance and promotion.	
0703102	Professional Writing Prerequisite: (None)	(2 credit hours)
	This course is designed to introduce students to the basic English language concepts in health field and to enable students to practice professional writing. Students will recognize the multiple purposes of correct documentation. The course will help students to learn effective and constructive communication strategies through different methods of documentation such as handwriting or using a computer.	

0713303	Children and Adolescents Health Nursing Prerequisite: (0702206) &(0703201) Concurrent with (0703304)	(3 credit hours)
	This course focuses on teaching students the proper nursing care of the healthy and ill child in all stages of his or her life as a unique individual with special needs and characteristics within the family and the community context. Also, it focuses on primary health care for children, including prevention of health problems for children in different age groups, as well as treatment and rehabilitation in case of illness. The course focuses is on the application of the nursing process in the care of children and young people as well as providing care for people living with various health problems.	
0703304	Children and Adolescents Health Nursing (Clinical) Prerequisite: (0702207) Concurrent with (0713303)	(3 credit hours)
	This course contains the skills necessary for nursing care of healthy as well as ill children and adolescents. The students will be able to perform	

	health assessment to the newborn child, as well as to the children and adolescents at different stages of their lives. Then, the students will compose a holistic plan to meet the client's physical and psychological needs, and implement the plan of care in accordance with the nursing process.	
0703305	Maternal Health Nursing Prerequisite: (0702206) Concurrent with (0703306)	(3 credit hours)
	This course aims to take care for physical, psychological, emotional, spiritual, social and economical aspects of women's health and her family. The focus is on health care through the application of the nursing process steps. Emphasis will be placed on maintaining women's health during the reproductive years, which includes: pregnancy, childbirth and the postpartum periods. It also includes fetal growth and development, the immediate care of the newborn after birth and family planning and gynecological problems.	
0703306	Maternal Health Nursing (Clinical) Prerequisite: (0702207) Concurrent with (0703305)	(3 credit hours)
	The course focuses on the application of the principles of primary health nursing care, which include maintaining the health of women and prevention of the disease through the application of the nursing process steps. This course focuses on the student's education and training on the application of skills related to the care of women during pregnancy, childbirth and post-natal, as well as teaching the students the skills related to family planning methods and caring for women with various diseases.	
0703309	Reproductive Health Prerequisite:(0703305)	(3 credit hours)
	This course aims to introduce the basic concepts related to reproductive health. It focus on safe motherhood and parenting, women's health and reproductive health of adolescents and men through different stages of life of taking into consideration physical, psychological and social well-being. Topics such as benign and malignant tumors of the reproductive system and sexually transmitted diseases will be addressed; emphasis is placed on early detection, prevention and the provision of nursing care	
0703307	Scientific Research & Statistical Methods Prerequisite:(1902103)	(3 credit hours)
	This course is designed to introduce students' to the basic concepts of research, its nature, purposes, methods, literature review, data collection, analysis & utilization. It focuses on the application of the scientific method in dealing with health problems, and allows the student the opportunity to prepare research projects.	

0701406	Trends, Issues and Ethical considerations in Nursing Prerequisite:(0702207)	(2 credit hours)
	This course introduces the student to current issues and problems influencing nursing practice and education and possible approaches in dealing with them. In addition, it defines the modern trends of nursing care and education to improve it and apply it in the nursing profession. The course focuses on ethical issues in nursing profession and their significance while providing nursing care.	
0701407	Health and Occupational Safety Prerequisite: (None)	(3 credit hours)
	This course introduces the student to the concepts and principles related to the maintenance of the health through the prevention of occupational hazards for nurses and health care recipients and their families. It includes safety measures in relation to the nurse's and clients immediate environment. It focuses on the prevention and management of accidents, planning safety precaution measured and teaching prevention strategies.	
0711302	Nursing Gerontology Prerequisite:(0702207)	(3 credit hours)
	This course aims to provide students with the educational opportunities for the exploration and application of advanced nursing roles in health care for the elderly. The course focuses on the role of nursing in meeting the physical, psychological, social, cultural and spiritual needs of older persons and their families. The course also includes exploring the clinical symptoms of the common health problems among the elderly in the community. The student will learn to provide high quality of nursing care through the application of standards of care with a multi-disciplinary health team.	
0701410	Community Health Nursing Prerequisite: (0702309),(0703304)&(0703306),Concurrent with (0711411)	(3 credit hours)
	This course designed to prepare students to work in the community health field and benefit from the concepts that have been studied in the previous nursing courses. The course focuses on the concept of family and deal with it in cases of health and illness, and family interactions with the local community and the assessment methods for community and family, and how to care for elderly and people with special needs. Also, it will introduce students to the various roles of community health nurse available in the community, including the role of the nurse in school health.	
0711411	Community Health Nursing (Clinical) Concurrent with (0711410)	(3 credit hours)

<p>This course provides the student with the most recent concepts related to the community and family health, and how student practice the role of community health nurse. The student will understand the principles of environmental health, community health, care methods and health education in different settings, including health care centers, homes, schools, factories and organizations care for people with special needs and the elderly.</p>

Study Plan for Master of Science Degree in Nursing

Master Degree in Clinical Nursing/Critical Care

First: General Rules & Conditions:

1. This plan conformstohe valid regulations of the programs of graduate studies.
2. Specialties of Admission:
 - The First Priority: Bachelor's in**Nursing**, Bachelor's in.....,
 - The second Priority: Bachelor's in....., Bachelor's in.....,

Second: Special Conditions: 2Year experience

Third: Study Plan: Studying (36) Credit Hours as following:

1. Obligatory Courses (24) Credit Hours:

Course No.	Course Title	Credit Hrs	Theory	Practical	Pre/Co-requisite
0701722	Specialized Nursing: Ethics and Roles	3	3	-	-
0703720	Nursing Theories: Development and Application	3	3	-	-
0703721	Research Methodology in Nursing	2	2	-	=
0703730	Statistical Methods for Health Care Research	2	2	-	=
0702721	Health Assessment Skills	2	1	8	-
0702722	Critical Care Nursing (1)	3	2	8	<u>0702721</u>
0702723	Critical Care Nursing (2)	3	2	8	<u>0702722</u>
0702725	Clinical Nursing	3	1	16	<u>0702723</u>
0702726	<i>Changes in health physiology</i>	3	3	-	-

2. Elective Courses: Studying (12) Credit hours from the following:

Course No.	Course Title	Credit Hrs	Theory	Practical	Pre/Co-requisite
0701732	<i>Teaching and Training in Nursing</i>	3	3	-	-
0701733	Management and Leadership in Nursing	3	3	-	-
0503705	Clinical Pharmacology	3	3	-	-
0703722	Nursing Care of Critically ill Children	3	2	8	-
0702724	Emergency and Disaster Nursing	3	2	8	-
0702731	Palliative Care: Pain and Suffering	3	3	-	-
0701730	Therapeutic relationships in psychiatric nursing	3	3	-	-

3. Thesis: **THE STUDY PLAN: Studying (36) Credit Hours as follows:**

1. **Obligatory courses: (21) Credit Hours:**

Course No.	Course Title	Credit Hrs	Theory	Practical	Pre/Co-requisite
0701722	Specialized Nursing: Ethics and Roles	3	3	-	-
0703720	Nursing Theories: Development and Application	3	3	-	-
0703721	Research Methodology in Nursing	2	2	-	=
0703730	<i>Statistical Methods for Health Care Research</i>	2	2	-	=
0702721	Health Assessment Skills	2	1	8	-
0702722	Critical Care Nursing (1)	3	2	8	<u>0702721</u>
0702723	Critical Care Nursing (2)	3	2	8	<u>0702722</u>
0702725	<i>Clinical Nursing</i>	3	1	16	<u>0702723</u>

2. **Elective Courses: Studying (6) Credit hours from the following:**

Course No.	Course Title	Credit Hrs	Theory	Practical	Pre/Co-requisite
0701732	<i>Teaching and Training in Nursing</i>	3	3	-	-
0701733	Management and Leadership in Nursing	3	3	-	-
